(530) 841-2386 Fax: (530) 842-4836

**For Immediate Release**  
**June 12, 2014**

## **FREE Home Water Surveys**

Get a jump on high summer water bills! The City of Yreka Public Works Department is offering FREE home surveys to our customers to help them reduce their water bills by using water more efficiently. We all enjoy our beautiful landscapes that add so much to our lives and home values, but landscapes can use up to 60 percent of our water in the summer and can drive up our water bills. A home surveyor will come to your home to check for leaks, indoors and outdoors, check water using appliances, check your irrigation system, and make recommendations to help you save water.

Using water efficiently not only saves you water, but also enables the City of Yreka Public Works Department to maintain adequate levels of storage in our tanks for human consumption, sanitation, and fire-fighting. Yreka has been fortunate for the last 45 years to have a stable supply of high quality water from a pristine source – even in drought years! By using water wisely, especially on our landscapes, we ensure that this precious resource is available for future generations and that we have adequate stored water for emergencies and daily use.

To schedule a FREE home survey call 530-841-2370. If you want to do a home survey yourself, pick up a copy at City Hall or at our website at [www.ci.yreka.ca.us/utilities/water-efficiency](http://www.ci.yreka.ca.us/utilities/water-efficiency).
