INDEPENDENT AUDITORS' REPORT

To the City Council
City of Yreka
Yreka, California

I have audited the accompanying financial statements of the Transportation Development Act Fund of the City of Yreka, California, as of and for the years ended June 30, 2021 and 2020, and the related notes to the financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express an opinion on these financial statements based on my audit. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Opinion

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Transportation Development Act Fund of the City of Yreka, California, as of June 30, 2021 and 2020 and the changes in financial position thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 1, the financial statements present only the Transportation Development Act Fund and do not purport to, and do not, present fairly the financial position of the City of Yreka, California, as of June 30, 2021 and 2020, the changes in its financial position, or, where applicable, its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America. My opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require the budgetary comparison information on page 8 be presented to supplement the financial statements. Such information, although not a part of the financial statements, is required by the Governmental Accounting Standards Board, who considers it an essential part of financial reporting for placing the financial statements in an appropriate operational, economic, or historical context. I have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the financial statements, and other knowledge I obtained during my audit of the financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards* and the *TDA Statutes and California Code of Regulations issued by the California Department of Transportation*, I have also issued my report dated November 29, 2021, on my consideration of the Transportation Development Act Fund of the City of Yreka, California's internal control over financial reporting and on my tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Transportation Development Act Fund of the City of Yreka, California's internal control over financial reporting and compliance.

Transportation Development Act Fund
Notes to Financial Statements
June 30, 2021 and 2020

Note 1: Summary of Significant Accounting Policies

The financial statements of the City of Yreka Transportation Development Act Fund (TDA Fund) have been prepared in conformity with accounting principles generally accepted in the United States of America, as prescribed by the Governmental Accounting Standards Board (GASB). GASB is the accepted standard-setting body for establishing governmental accounting and financial reporting principals. The more significant of the TDA Fund's accounting policies are described below.

The state of California established the Transportation Development Act (TDA) to provide funds for public transportation. The TDA created a Local Transportation Fund (LTF) in each county for the transportation purposes specified in the TDA Statutes and Administrative Code. Revenues of the LTF are derived from ¼ cent of the 7.25 cent retail sales tax collected statewide. The ¼ cent is returned by the State Board of Equalization to each county according to the amount of tax collected in the county.

A. The Reporting Entity

The financial statements are intended to present the financial position and results of operations of only that portion of funds of the City of Yreka that is attributable to the transactions of the Transportation Development Act Fund.

B. Fund Accounting

The accounts of the TDA Fund are organized and operated on the basis of a fund, which is defined as a fiscal and accounting entity with a self-balancing set of accounts established for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions or limitations.

Governmental Fund Type

Governmental funds are used to account for the TDA Fund's expendable financial resources and related liabilities. The measurement focus is upon determination of changes in financial position. The following is the TDA Fund's governmental fund type:

Special Revenue Fund – this fund accounts for the financial activity of specific revenue sources that are legally restricted to expenditures for specific purposes.

C. Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

The governmental funds are maintained on the modified accrual basis of accounting. Revenues are recognized in the period in which they become both measurable and available. "Measurable" means the amount of the transaction that can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are recorded when the related fund liability is incurred.

City of Yreka

Notes to Financial Statements
June 30, 2021 and 2020

Note 1: Summary of Significant Accounting Policies (Continued)

D. Budgets

Budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America.

Annual appropriated budget is adopted for the TDA Fund. All annual appropriations lapse at year end.

E. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during that period. Actual results could differ from those estimates.

F. Cash and Investments

The City considers all highly liquid investments with maturities of three months or less when purchased to be cash equivalents.

The TDA Fund holds its cash and investments in the City of Yreka Treasury. The City of Yreka maintains a cash and investment pool and allocates interest to the various funds based upon the average monthly cash balances. Information regarding categorization of investments can be found in the City of Yreka's basic financial statements.

Investments, including pooled investments, are presented at fair value.

G. Fund Balance Classification

The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the City is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications used in the governmental fund financial statements are as follows:

- Nonspendable: This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact. The TDA Fund did not have any nonspendable resources as of June 30, 2021 and 2020.
- Restricted: This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation. The City has classified streets and roads fund balances as restricted for fund purposes.
- Committed: This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the City Council. These amounts cannot be used for any other purpose unless the City Council removes or

City of Yreka
Transportation Development Act Fund
Notes to Financial Statements
June 30, 2021 and 2020

changes the specified use by taking the same type of action (ordinance or resolution) that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements. The TDA Fund did not have any committed resources as of June 30, 2021 and 2020.

- Assigned: This classification includes amounts that are constrained by the City's intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by the City Council or through the City Council delegating this responsibility to the City clerk through the budgetary process. This classification also includes the remaining positive fund balance for all governmental funds except for the General Fund. The TDA Fund did not have any assigned resources as of June 30, 2021 and 2020.
- Unassigned: This classification includes the residual fund balance for the General Fund. The Unassigned classification also includes negative residual fund balance of any other governmental fund that cannot be eliminated by offsetting of Assigned fund balance amounts.

The City would typically use Restricted fund balances first, followed by Committed resources, and then Assigned resources, as appropriate opportunities arise, but reserves the right to selectively spend Unassigned resources first to defer the use of these other classified funds.

Note 2: Cash

Cash consisted of cash held in pooled accounts with the City treasury at June 30, 2021 and 2020.

The City maintains a cash and investment pool and allocates interest to various funds based upon the average monthly balances. Information regarding categorization of investments can be found in the City of Yreka financial statements. At June 30, 2021 and 2020, the cost and fair value of cash held with the City Treasurer were approximately the same.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

To the City Council
City of Yreka
Yreka, California

I have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities of the Transportation Development Act Fund of the City of Yreka, California, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which comprise the Transportation Development Act Fund of the City of Yreka, California's financial statements, and have issued my report thereon dated November 29, 2021.

Internal Control Over Financial Reporting

In planning and performing my audit of the financial statements, I considered the Transportation Development Act Fund of the City of Yreka, California's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing my opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Transportation Development Act Fund of the City of Yreka, California's internal control. Accordingly, I do not express an opinion on the effectiveness of the Transportation Development Act Fund of the City of Yreka, California's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

My consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during my audit I did not identify any deficiencies in internal control that I consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Transportation Development Act Fund of the City of Yreka, California's financial statements are free from material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit, and accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and the *TDA Statutes and California Code of Regulations* issued by the California Department of Transportation.

Purpose of this Report

The purpose of this report is solely to describe the scope of my testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
