JANUARY 25, 2017
3:00 PM AND 6:30 PM

The Department of Public Works is planning to have an Informational Workshop to acquaint members of the public with the newly updated Yreka Creek Greenway Master Plan, which is a key part of the City's current Flood Hazard Reduction Project. The 2016 Master Plan encompasses several goals, including flood hazard reduction, water quality, wildlife habitat, and increased connectivity of non-motorized transportation along Yreka Creek. These issues directly affect the community and deserve public attention and input.
